SUMMARY

As a fresh graduate in software engineering, I offer a strong academic background coupled with a hands-on approach to coding. Eager to contribute my skills in a collaborative team setting, I bring a passion for problem-solving. Excited to embark on a fulfilling journey as a software engineer and make meaningful contributions to innovative projects.

EDUCATION

Bachelor Of Technology

St. Johns College of engineer and technology

📅 06/2020 - 05/2024

Intermediate - MPC

Akshara Shree Junior College

📅 06/2018 - 04/2020

SSC

Narayana Group of schools

📅 06/2017 - 04/2018

PROJECTS

Vehicle Booking System

📅 09/2023 - 11/2023 📍 Remote

🔗 https://github.com/Yaseer-03/Vehicle_Booking_System

Leading the development of a dynamic Vehicle Booking System using Java and MySQL. Demonstrating proficiency in Java programming and database management.

- Implemented database storage for vehicle registration data in the vehicle schema.

Detecting Social Technical Attacks through URL Analysis and Character-Aware Language Models

📅 01/2024 - 05/2024 📍 Remote

🔗 <https://github.com/Yaseer-03/Detecting-Social-Technical-Attacks-through-URL-Analysis-and-Character-Aware-Language-Models>

Detecting Social Technical Attacks via URL Analysis and Character-Aware Language Models' is a creative project that introduces a novel combination of URL analysis and character-aware language models.

- This strategy highlights interdisciplinary competence at the intersection of cybersecurity and natural language processing by successfully identifying and thwarting sophisticated social engineering assaults.

SKILLS

Java

Python

MySQL

Analytical Thinker

Team Lead

INTERNSHIP

Internship

CodeClause

📅 06/2023 - 07/2023 📍 Remote

IT services and consulting

- Successfully accomplished three tasks during my internship, showcasing my ability to meet objectives and contribute effectively.

COURSES

Java

Successfully completed Java training at SureTrust, gaining expertise in Java programming, object-oriented programming concepts.

Python

Completed comprehensive python programming course on CodeTantra, gaining proficiency in python programming

SQL

Completed an extensive SQL course, acquiring proficiency in database management, querying and data manipulation

INTERESTS

Tech Enthusiast

Application Development
