SUMMARY

As a fresh graduate in software engineering, I offer a strong academic background coupled with a hands-on approach to coding. Eager to contribute my skills in a collaborative team setting, I bring a passion for problem-solving. Excited to embark on a fulfilling journey as a software engineer and make meaningful contributions to innovative projects.

EDUCATION

Bachelor Of Technology

St. Johns College of engineer and technology

06/2020 - 05/2024

Intermediate - MPC

Akshara Shree Junior College

06/2018 - 03/2020

SSC

Narayana Group of schools

06/2017 - 04/2018

COURSES

Java Programming- SureTrust Organization

Successfully completed Java training at SureTrust, gaining expertise in Java programming, object-oriented programming concepts.

Python Programming - CodeTantra

Completed comprehensive Python programming course on CodeTantra, gaining proficiency in Python syntax, data structures, and algorithms

SQL - Udemy

Completed an extensive SQL course on Udemy, acquiring proficiency in database management, querying, and data manipulation.

PROJECTS

Vehicle Booking System

09/2023 - 12/2023 Remote

Leading the development of a dynamic Vehicle Booking System using Java and MySQL. Demonstrating proficiency in Java programming and database management.

- Implemented database storage for vehicle registration data in the vehicle schema.
- Dynamic allocation of vehicles based on user requirements.

SKILLS

Java

DSA

Python

SQL

Team Lead

Analytical Thinker

Leadership

Public speaking

INTERNSHIP

Java Developer Intern

CodeClause

06/2023 - 07/2023 Remote

IT services and consulting

- Successfully accomplished three tasks during my internship, showcasing my ability to meet objectives and contribute effectively

ACHIEVEMENTS

Java Developer Intern

I've consistently delivered successful outcomes through a combination of dedication, innovation, and consistency

Gold Medal in Java - HackerRank

Awarded a Gold Medal in Java on the HackerRank platform, showcasing proficiency in Java programming and problem-solving

Technobrain - 2K23

A National Level Technical Paper Symposium in College over 200+ students.

INTERESTS

Tech Enthusiast

Application Development
